***UCP of NE PA Community Participation Supports (CPS) Community COVID-19 Procedures  
UPDATE***

Thank you for your continued support and cooperation as we navigate the challenges of the COVID-19 pandemic.

As has been the situation all along during this pandemic, these guidelines will be evolving as new information becomes available. We continue to monitor information from a variety of sources to preserve the health and safety of those we serve.

The following steps have been updated:

**On July 3, 2020 – Governor Wolf called for a 14 day quarantine for anyone who has traveled to certain “hot spot” states. If you or a member of your family living in your household has traveled to or from any of these states you will need to refrain from participating in CPS Community for 14 days. We are instituting these same requirements for our staff. The complete list of states is available on the PA Department of Health website. There are currently 19 states on this list but that can change weekly. Please refer to the list if you do travel out of the area for any reason.**

In addition to having your temperature taken and answering questions related to COVID-19 we will also be asking **if anyone has traveled to any of the States that require quarantine for 14 days.** If the answer to any of the questions is yes, we will not be able to provide CPS.

As we evaluate the effects of the reopening in the green phase, we will be amending all of our policies related to the COVID-19 Pandemic. We want to be able to continue to provide the healthiest environment for your loved one. With your patience and cooperation, and our committed staff, we will continue to ensure everyone’s health, safety and welfare.

**UPDATED: July 13, 2020**

***Life without limits for people with disabilities.***
